Profile Summary:

I work as a front-end developer, the technologies I use are: HTML, CSS, Javascript and React. I have developed several projects throughout my journey as a programmer, from web pages to applications and games, and I can do much more, as I am always learning and updating myself. My portfolio with all my projects can be found here: (<https://portfolio-gabriel-l-santos.vercel.app/>).

Hard Skills:

- Experience in front-end development.
- Experience with HTML, CSS, Javascript and React.
- Beginner in programming, and always looking to learn more and improve myself as a dev.
- Various projects developed over time, from web pages to applications and games.

Soft Skills:

- Experience with customer service.
- Self-sufficient and fast learning.
- Efficient group work.
- Advanced English (B2 - TOELF 2021).

Education:

- Academic Training of Bachelor of Laws (From January 2012 to December 2016).
- Software Development Course Specialized in Front-End (September 2022 to January 2023) (<https://cursos.alura.com.br/degree/certificate/a3b503a4-cc45-4527-a9b6-b39ae5e6f164>)

Languages:

- Native Portuguese
- Advanced English (B2 - TOELF 2021)
